

Le grandi aziende incontrano studenti e laureati di ingegneria!

Quixant

Computer Platforms for Gaming

Mercoledì 7 Dicembre 2016 - ore 14.15

Aula Magna DIAG "A.Ruberti" - I piano - Via Ariosto, 25 - Roma

Quixant was established with the sole purpose of designing and manufacturing advanced PC-based gaming platforms. Based in the UK, Quixant currently has operations in Australia, Germany, Italy, Japan, USA and Taiwan and supplies gaming machine manufacturers throughout the world.

Quixant was established by a core team of individuals with many years' experience in the design, manufacture and sale of specialised gaming platforms to the global slot machine and gaming industry. Our systems are widely used by blue chip slot manufacturers all around the world.

We have built a business which combines global electronic, mechanical and software engineering capabilities with innovation and a Taiwanese manufacturing facility.

Quixant's continuous investment in new technology, products and service demonstrates our long-term commitment to be the premier vendor to the world's premier gaming companies.
